## VICE CHANCELLOR'S MESSAGE

My every endeavour for this university will be dedicated towards advancement of knowledge and educate our students in science, technology, and other distinguish areas of scholarship that will best serve the community, society, nation and the world in the 21st century at large. To cater the educational needs of the students and society the university will be committed to generate disseminate, and preserve knowledge, and to working with others to bring this knowledge to bear on the country's great challenges. It will be dedicated towards providing its students with an education that combines rigorous academic study and the excitement of discovery with the support and intellectual stimulation of diverse stakeholders.

In addition to, my priorities are quality enhancements in science and technical education offered by institutions affiliated to APJAKTU and facilitating and intensive efforts to nurture good faculty. The journey to excellence and quality is a continuous and rigorous process. It involves participation of everyone wholeheartedly in a shared mission of excellence and learner centred orientation in our approaches and process. I am in the process of identifying improvement agenda and a roadmap to enhance quality and improve students satisfaction, community satisfaction and employees' satisfaction by improving quality of all academic processes, research endeavour and organizational climate. I need wholehearted support of each one of you in this noble mission.

Anticipating your continuous feedback to improve the whole system.

With warm wishes,

Vice Chancellor  
APJAKTU, Lucknow

## VICE CHANCELLOR'S MESSAGE

India, the oldest civilisation and the oldest nation of the world, inherits a rich tradition of intellectual exploration. The Rigveda prayer आः नो भद्राः कर्तव्यो यन्तु विश्वतः (Let the noble ideas come to us from the entire world) underlines the openness in Indian thinking since ancient times. Even in the ancient period, India led the higher education system of the world, attracting student population from a number of countries to its famous seats of learning at Takshila and Nalanda.

Sustainable development and inclusiveness being our main mottoes, the university encourages teaching and research programmes addressing the issues of concern to the contemporary society. Thus, the system encourages not only the curricular activities, but also promotes co-curricular, extracurricular and extension activities through its outreach to and interaction with the local community.

While we have come a long way and our academic journey is marked by a number of path breaking milestones, we have to keep pace with the fast changing needs and expectations of the society. The process of creating new knowledge and producing capable human beings dedicated to the upliftment of the nation and the world has to continue with renewed vigour in an unabated manner.

I extend my best wishes to all the students, teachers and members of the administrative staff who are part of the University and to those also who intend to join us in our endeavour to liberate the humanity with the help of the powerful tool of knowledge.

With warm wishes,

Vice-Chancellor  
CCSU, Meerut

## GROUP DIRECTOR'S MESSAGE

Our vision is based on hard work, open communication, a strong emphasis on team work and a high level of responsibility. This visionary culture allows and emphasizes our wards not only to adopt the present day challenges but also individual responsibilities to the society and our nation at large.

Learning should be based on doing things and not merely knowing things. Until and unless learning solutions relate to real life and motivate the learner to acquire and apply the knowledge, the whole process will remain superficial. Our institution has set specific objectives and planned activities for achieving excellence in all spheres of Management. Information Technology, basic and elementary Education, Legal Sector, Paramedical and Hotel Management sports activities and basic schooling and many more courses to come very soon.

The service of the institution in creating personally mature, professionally equipped and service-oriented graduates and post graduates is really worth mentioning. We strongly believe in academic excellence and do not compromise on teaching standards or discipline. These three things are the springboards on which we operate.

People who feel good about themselves produce good results and people who produce good results feel good about themselves. We also believe in total learning and sharing.

Have a visit to our Campus and feel good to get good education.

I send my good wishes to all students, Directors, Principles, Head of the Departments, Administrators, Managers, Faculties, teachers and to everyone who is directly or indirectly involved with us.
